iSeries

www.calzoneIseries.com

Introducing the *i*Series from The Calzone Case Company, a new line of musical instrument and equipment cases destined to rock the planet. *i*Series cases are manufactured to Calzone's exacting quality control standards, and include a Lifetime Warranty. Features include ATA style construction, ABS Covering, 1/4" plywood, ribbed double angle aluminum frame, Tongue-in-Groove Valance, and Heavy Duty Steel Ball Corners / Recessed Twist Latches on most models. Wheeled cases are standard for larger models.

Welcome to our NEW *i*Series product line. If you don't see the case you require, please feel free to contact the Calzone Case Company, where we have thousands of plans on file, ready to be built, or you can choose to have your case custom designed to your specifications.

Don't see your case here?

Custom Calzone and Anvil cases for specialty and multiple instruments are easy to order, and we have hundreds of standard designs in our database covering everything from tubas and euphoniums to glockenspiels and xylophones!

Calzone created the new *iSeries* cases with maximum protection and affordable price points while preserving the level of quality we established thirty years ago. The *iSeries* Band & Orchestral Instrument line includes these seventeen standard models, but we can design and build ANY CASE you require through our three manufacturing facilities in the USA.
