KÖNIG & MEYER
Stands For Music

Welcome to perfection,
functionality and quality.

Welcome
to König & Meyer.

1,500 products.
65 years of tradition.
One brand.

„We are a family-operated company
that takes our social and environmental
responsibility seriously, generates creative
ideas, and treats our employees, customers
and suppliers fairly.”

In the music world, we have stood for intelligent accessories of an outstanding quality and unique design since 1949. Over the decades, many developments have become standard in the music industry, such as the classic 101 music stands, the 210/2 microphone stands, but also the instrument stands for trumpets, clarinets, and flugelhorns, which can be stored in the instrument bell or the invention of the ring-lock system to firmly position speakers.

We remain a family-run company for whom social and environmental responsibility is important and we are proud of where we are based, in Wertheim, Germany. Here we have 250 employees who ensure that our products are efficiently made to high quality standards with good service and punctual delivery. From development through production to marketing, we are uncompromising in our goal of providing a premium-level service.

Above all, however, it is people who make our company what it is: our customers, our employees, and our suppliers. By working in partnership with one another and ensuring mutual respect, we have enjoyed trusted collaborations for decades. It is our ethos to build up reliable and long-term relationships with our partners and to ensure that these relationships are maintained. Thank you for remaining true to our company and our products for so many years. We are looking forward to continuing our successful collaboration in the future.

TECHNOLOGY

Precision is the ultimate key to quality

Technology is our focus right from the start with the initial design of a new product. Together with our highly qualified employees we operate an independent research and development department. Processing is not the only area that requires careful planning; the qualities and functions that make our stands so outstanding also have to be well thought-out. We even make our own tools and equipment so that the new products we envision achieve the quality we are known for.

Our certified quality management system (DIN EN ISO 9001:2008) and qualified employees ensure that every single product is delivered on time in the very best quality. Innovative technology, exceptional high vertical integration and consistent re-investment in machinery provide König & Meyer with the flexibility to respond quickly and easily to customer needs.

IDEAS

Innovation as a driving force

„Our products are the result of an understanding of tradition, a demand for quality and a talent for invention.”

Driven by perfection, innovation and precision, we continually develop new products. The products of tomorrow are based on state-of-the-art computer technology, short development times and the very best quality.

Design, feel, and ergonomics – we test and assess everything to ensure it meets our uncompromising expectations from the initial design to the final product. At König & Meyer perfection is the standard. We know only a strong brand with unique service and outstanding quality will keep our customers coming back.

2017

A new distribution center is put into operation

2013

Precision and perfection down to the smallest detail – thanks to a new flat laser cutting machine.

2010

Solar energy panels, a second tube laser cutting machine and a vertical conveyor improve process flow.

2009

Awarded the “Safety with System” seal of quality for excellent safety and health in the workplace.

2007

Certification for the successful introduction of a quality management system.

2006

A new tube laser cutting machine is taken online, opening up new manufacturing potential.

2001

König & Meyer supports different bands and projects from a wide range of musical genres.

1987

The production range is expanded to include keyboard stands, mixer stands and 19" racks.

1968

Stands manufactured for other industry branches (e.g. IV stands, stands for hair-dryer hoods).

1955

An extensive range from instrument stands, microphone stands and boom arms to speaker stands is developed.

1949

Company founded with ten employees who manufacture music stands and measuring instruments.

Exclusive and innovative at König & Meyer: multimedia accessories, the »Spider Pro« keyboard stand and the absolute classic, the microphone stand 210/2 - proven over 50 years.

MUSIC

Enjoy the pleasure of making music

Music means something different to everyone. From classic to electronic, live or solo vocals: every artist lives through the music they create. So it is important to recognize the very different needs musicians have and to be able to offer the best range of accessories.

From classical to pop, from the garage to the largest stage – across the globe musicians and artists encounter the König & Meyer product world they have come to trust – music stands, microphone and instrument stands, a wide range of other stands and holders, and much, much more.

K&M KÖNIG & MEYER SPIDER PRO

Music

PASSION

Perfection is our philosophy

„Our philosophy is to produce products of excellent quality and durability in an environmentally friendly manner so that musicians worldwide can focus on what’s most important – their music.”

Whether you are a beginner or a professional – König & Meyer offers optimal music accessories for any area of application. First-rate materials and optimized product processing result in tangible manufacturing quality right down to the smallest details. We only use precision steel tubes, which are consistent in their dimensions and tolerances. Metal and plastic parts are manufactured in-house and we have been developing and building tools and equipment ourselves for many years now. Our exceptional standards have established the König & Meyer name as an outstanding brand throughout the world.

Passion

ENVIRONMENT

Sustainable management

„Resources are too valuable to waste. Whether we are making a music stand, a microphone stand or a speaker stand, resource conservation and environmental protection are firmly anchored in every step of our production.”

We prevent waste, conserve water and energy and reduce emissions whenever possible. All environmentally relevant processes are continually reviewed and we develop strategies and measures to minimize resource consumption and environmental impact.

At König & Meyer environmental protection has been a fundamental corporate goal for decades. Our unlimited commitment to quality and the environment in the production process translates into the most effective use of raw materials, saving energy, increasing our use of renewable energies, recycling components and products at the end of their lives, avoiding pollutants in production, reducing CO₂ emissions, lowering water consumption and treating waste water from the production process, turning it back into drinking water. Since 1979 we have succeeded in reducing our water consumption by 94 percent.

König & Meyer was awarded the Environmental Prize of the Federal State of Baden-Württemberg for our outstanding achievements in promoting environmental protection and for our environment-based management.

König & Meyer has been certified according to the recognized ISO 14001 standard since 2000 and the EU EMAS Regulation since 1998.

SERVICE

A strong partnership

Along with optimal delivery capacity and products of exceptional quality, we offer our customers additional services: a 5-year warranty on our products (excludes lights, bulbs and batteries) and 10-year spare parts service for all our catalogue products. Our service range distinguishes the König&Meyer brand. We want to make it even easier for our customers to choose in favor of our music accessories.

Our idea of customer satisfaction includes offering extensive product information and quick and direct routes of communication. Visit our website for information, videos and setup instructions, and keep up the latest König&Meyer brand news on Facebook, Twitter and our YouTube channel. We welcome your feedback.

MUSIC STANDS

König & Meyer music stands are virtually unsurpassed in quality the world over. All elements of the stands' construction are precisely calibrated to ensure perfect interplay. Meticulously selected materials guarantee carefree setup and breakdown – and of course a sturdy stand – year after year.

Thanks to the variety of styles and sizes of music stands that König & Meyer has to offer, everyone – from the budding music pupil to the professional musician – can find the perfect stand for his or her individual needs.

-------	--------------

The most impressive stand in its class. This extremely stable design of stand has a sheet music desk of 500 x 240 mm – for size plus grandeur. The three-piece folding music stand has easy-to-use clamping elements. Its large music desk has plenty of room for heavy folders and is an alternative to a music stand with a plate.

This music stand has been specially designed for venues such as schools, concert halls, halls etc. It is absolutely ideal for whenever several orchestra music stands need to be set up and cleared away quickly or when storage space is limited. The minimum stacking distance is only 70 mm. Height adjustment is very easy by just using the clamping lever. The tension of the lever can be adjusted to your needs. The height can be continuously adjusted between 760 and 1300 mm. Trolley 11935 for up to 12 orchestra music stands is also optionally available for transport and storage.

Another "highlight" from König & Meyer's range of lights. The exceptionally flexible goose neck allows the musician to choose either a focussed beam or flat light. Each lamp head contains a pack with four LEDs, which can be switched on or off individually. The latest LED technology guarantees a bright source of light, long product life and minimal consumption of energy. The light is attached to surfaces with a maximum thickness of 25 mm using the clip. This multi-purpose attractive lamp functions with batteries or external power supply. The power pack and 3 batteries are included in the delivery.

The useful »Mighty Bright Duet 2« light is the ideal light to take on tour or to use at home. Its flexible goosenecks mean it can easily be adjusted to suit individual needs. Long-life LEDs easily light a 2 x A4-sized surface. A practical attachment clip allows it to be used on music stands or as a standing light. Four bright light diodes to switch on individually are powered optionally by re-chargeable batteries or by a power supply unit.

black with translucent support elements 17605-000-00

The newly developed guitar stand is the ideal stage companion, but it also does a superb job in the studio or at home. Thanks to the moveable hanger and easy height adjustment, up to 4 acoustic, electric and bass guitars are always easy to hand and ready for playing. Even unusually shaped guitars can be stored safely. Large soft foam rolls protect the guitars from inadvertent knocks or bumps. The „fit-for-tour“ steel tube construction is stable and durable. The base legs can be folded with little effort into a compact and flat package for transport. The translucent (colorless) support arms are suitable for all kinds of guitar lacquers, including nitro lacquer. Discoloration from the stand to the guitar does not occur.

Height	700 mm

Order No.

black with translucent support elements 17525-016-00

The Guardian securely holds up to 5 E-guitars or base guitars, saving space. Specially adjusted and cushioned instrument supports and the flexible protective arms provide a secure grip. The Guardian is easy to transport and carry thanks to an innovative folding mechanism. It can be stored in an upright position. The individual upper support brackets with integrated pick holders allow the guitars to be placed either on the right or left side, and also ensure that the guitar strings are not touched. For mobile use castors can be mounted optionally. The translucent (colorless) elements made of high quality Elastomer plastic are suitable for all kind of guitar lacquers, including nitro lacquer. Discoloration from the stand to the guitar does not occur.

Suitable for	A and B clarinets
Height	130 mm
Number of legs	5 pieces

Order No.

black

15228-000-55

The „In-Bell“ clarinet stand is extremely small and compact. 5 stable die-cast feet ensure excellent stability and sturdiness. Thanks to the patented and easy to operate screw-in system the feet can be conveniently stored in the peg. The short peg completely fits into the bell of the clarinet making it easy for transport in all common instrument cases.

CLARINET STAND

DRUMMER'S THRONES, BENCHES & STOOLS

A perfect drummer's throne and the proper posture it promotes is one of the most important requirements for a drummer.

Long testing phases and intensive collaboration with professional drummers like Mike "Gomezz" Gommeringer, Toni Liota and Sven "Ice" Ehrhardt have helped us to design our latest drummer's throne models to withstand the most stringent demands. Ergonomically perfect seats and an ingenious, finely-calibrated adjustability make the musician feel right at home on a König & Meyer drummer's throne.

Thanks to the usual high-quality workmanship and extensibility, König & Meyer keyboard benches and stools have long been classics among our customers.

DRUMMER'S THRONE »PICCOLINO«

14010	BASELINE
Weight	2.6 kg
Special features	small footprint with a diameter of 430 mm makes the throne ideal when space is at a premium; the easy-to-use wing nut permits a seat rotation
Material	steel
Base diameter	430 mm
Leg construction	double-braced 3-leg base
Height adjustment	push-button and clamping lever, in 15 mm steps
Rod combination	2-piece folding design
Seat	imitation leather, ø 300 mm

chrome	14000-000-02

The ergonomically designed seat with a sturdy artificial leather cover in classic leather grain reduces pressure on thighs creating an unique comfortable seat. Height adjustment by a notched system with 10 mm steps and an easy-to-use clamping lever. The extremely robust base design with extravagant foot end caps provides an unbelievably safe floor grip. The detachable wobble-free seat features a die-cast flange, which clamps with a lever to permit seat rotation from loose to fixed position.

Order No.	
black	13440-000-55

Comfortable professional orchestra chair with upholstered seat and backrest. Cushioning and fabric (Trevira CS) are made from inherently fire-resistant materials. The black fabric has a durability rating of 100,000 abrasion resistance cycles. The black powder-coated base is made from sturdy steel tubes with 2 mm wall thickness. The pneumatic seat height adjustment is variable using a release lever. The height of the backrest and the seat angle are also adjustable. The product has the following useful features: low-noise plastic glides, stacking grooves and stacking protection. The rounded seat cushion with ventilation holes and the breathable foam provide for comfortable seating.

KEYBOARD STANDS

From experience, we know that among musicians, keyboardists often subject their stands to the most rigorous treatment.

When developing new stands for keyboard instruments, König & Meyer engineers and designers therefore pay extra special attention to the sometimes enormous weight of the instruments, the overview of the instrument needed while playing and the equally important ergonomic comfort of the keyboardist's "work-place". With painstaking attention to detail, König & Meyer imbue their keyboard stands with individualised adjustability, compactness for optimal transportability, and above all, reliability – gig after gig.

KEYBOARD STAND

The ergonomic clamping mechanism makes setup or break down easy and fast. The robust metal joint can be adjusted in 5° intervals; the short intervals provide the user with a multitude of positions. With the assistance of a scale the user is able to easily find his preferred setting. Both of the back rubber end caps can be adjusted on their axis and as such can be adjusted perfectly to the width of the keyboard. The maximum support depth is 350 mm.

Our best X stand - comfortable and extremely sturdy. The new design of the double brace stand tubes provides for perceptible stability and safety. The ergonomic clamping lever makes it easy to setup and collapse the keyboard stand. The robust metal joint is intermeshed in 5° steps and provides for a multitude of different positions. The scale provides the user with the option to always select their preferred setting. Both of the back rubber end caps can be adjusted on their axis and as such can be adjusted perfectly to the width of the keyboard. The maximum depth is 350 mm.

Its compact steel tubing construction and large round floor protectors make this attractive keyboard stand significantly more stable. Two sided spring-loaded locking screws make precision height adjustment easy. The support arms can be adjusted to suit the size of the keyboard. When folded, the table is impressively flat. The design of the table complements keyboard bench 14085 or 14086. An optional extra is the 18813 attachment for a second keyboard or laptop. Use the adapter 18814 to mount the microphone boom arm 18956, the music holder 18958, the iPad holder 18816 or the universal holder 18817 easily and quickly.

-------	--------------

The world-renowned table-style keyboard stand has been upgraded. With a height adjustment range from 600 - 1000 mm the keyboard stand can now be used while standing or sitting. Adjusting the table does not require any tools. As before our keyboard stand impresses through its stability and flexibility. The stand is equipped with height adjustable legs with integrated levelling feet for uneven surfaces. The keyboard stand is collapsible for easy and compact transport. There is a wide range of expansion options, such as a stacker for a second keyboard, laptop or universal holder, which round off the complete package.

STANDS FOR MIXER, MONITORS, AND 19" RACK-MOUNTED PRODUCTS

Whether in the rehearsal room, on stage or in a professional sound studio, König & Meyer stands and racks also pull their weight in a discreet yet dependable way day after day. The high-quality, attractively designed 19" equipment is equally appropriate for use on stage as well as for everyday use in the studio.

A large selection of accessories guarantees flexibility for every purpose. The systems are extendable upon demand, practical and comfortable, and can also be adjusted to suit.

HEADPHONE HOLDER

MONITOR STAND

28101	
Weight	3.66 kg
Material	steel
Max. load capacity	35 kg
Angle of inclination	42°
Suitable for	amplifiers or monitor speakers
Support width	280 mm
Support depth	350 mm
Height	from 425 to 515 mm
Leg construction	collapsible base

Order No.

black 28101-000-55

AMP STAND

28130	
Weight	1.58 kg
Special features	with a 3/8" or 5/8" threaded connection for attaching a microphone boom; folds very small; support arms with non-marring rubber
Material	steel
Support	non-marring material
Max. load capacity	35 kg
Angle of inclination	15° to 28°
Suitable for	amplifiers, monitors and speakers
Support width	from 350 to 530 mm
Support depth	from 280 to 385 mm
Size when folded	122 x 86 x 602 mm
Height	from 570 to 990 mm
Leg construction	tube legs with cross braces
Number of legs	3 pieces

Order No.

black 28130-011-55

The amp stand can hold monitors, amps or other equipment to a max. weight of 35 kg without a problem. The angled front legs have significantly improved the stand's stability and strength. The low centre of gravity ensures even larger amps are securely displayed. The fine adjustment on the supporting leg allows a tilt between 15° and 28°. A microphone can be attached to the telescopic tube using a boom arm with a thread of either 3/8" or 5/8". Folds compactly.

MICROPHONE STANDS

We're especially proud of these: König & Meyer microphone stands have boasted an outstanding reputation worldwide for decades. There is hardly a music studio, concert or event that isn't outfitted with König & Meyer microphone stands.

What convinces the musicians?

The solid, tough clamp elements and mechanics, or the choice of materials and the quality of the finish? We think it's the sum of all the parts of a stand that is made with precision and a love for detail.

*All microphone stands are
also available in 5/8" thread*

black 26200-300-55

The elegant combination of triangular-shaped sections and the new design of the slender one-hand adjustment mechanism go harmoniously with standard microphone clips and microphones. The height of the stand can be adjusted soundlessly, simply and easily using the unique one-hand clutch. The stand is significantly lightweight, but nonetheless stable due to the ingenious round base with an integrated steel plate with an attractive plastic cover.

ONE-HAND MICROPHONE STAND »PERFORMANCE«

26250	STARLINE
Weight	2.99 kg
Special features	round-shaped rods; soundless and easy height adjustment; significantly light- weight, but nonethe- less stable due to the ingenious round base with an integrated steel plate with an attractive plastic cover; circumferential rubber profile reduces undesirable vibration and footfall noise
Material	rod combination made from aluminum, handle bar plastic
Base diameter	275 mm
Leg construction	round base
Threaded connector	3/8"
Height adjustment	one-hand clutch
Rod combination	2-piece folding design
Height	from 1,055 to 1,750 mm

Order No.

black 26250-300-55

The stable combination of high quality round-shaped rods and the elegant one-hand adjustment present a harmonious overall appearance. With the practical one-hand system the height of the stand can adjusted smoothly and silently (no scratching noises). The ingenious steel base with its elegant plastic cover provides more stability even though the base is much lighter. A circular rubber insert ring on the base also reduces unwanted vibrations and foot traffic noise, even when the stand is placed in extreme positions. In addition, the floor (e.g. wood floor) is protected from possible damage.

MICROPHONE STAND

MICROPHONE STAND »RIEN«**25950**

Weight	2.98 kg
Special features	extra low design; zinc die-cast base; very short, heavy legs
Material	steel
Leg construction	socket with foldable legs
Threaded connector	3/8"
Boom arm	2-piece telescopic design
Boom arm clamping	wing nut
Boom arm length	from 425 to 725 mm
Height	280 mm

Order No.

black	25950-300-55
-------	--------------

The low-level stand is particularly suitable for bass drums or bass amplifiers. Very short and heavy legs mean this stand needs very little standing space. A telescopic boom arm completes the features of this compact unit.

Carbon microphone fishing pole with high stiffness. Cables can be placed inside the pole.

Length: 600 to 1,825 mm

Innovative locking system

Carbon microphone fishing pole with high stiffness. Cables can be placed inside the pole.

Length: 800 to 2,825 mm

Innovative locking system

Carbon microphone fishing pole with high stiffness. Cables can be placed inside the pole.

Length: 1,000 to 3,825 mm

MICROPHONE »FISHING POLE«

23790	
Weight	0.9 kg
Special features	cables can be placed inside; carrying case included
Material	carbon
Threaded connector	3/8"
Rod combination	5-piece folding design
Length	from 1,000 to 3,825 mm
Adjustment	clamp lever(s)

Order No.

black 23790-000-55

Professional carbon microphone fishing pole. The exceptional characteristics of this microphone fishing pole include sturdiness and high stiffness considering its light weight. The four clamps with the innovative locking system are easy to use and provide highly functional locking force. The fishing pole can be adjusted variably between 1000 and 3825 mm. Cables can be placed inside the pole. A upholstered carrying case is included.

POPKILLER

23956

Weight	0.22 kg
Special features	double nylon screen with plastic frame

Shield diameter	130 mm
Goose neck diameter	8 mm
Goose neck length	330 mm

Order No.

black 23956-000-55

POPKILLER**23966**

Weight	0.32 kg
Special features	double nylon screen with plastic frame; large shield diameter
Material	steel
Screw-on to	tube diameter up to 30 mm
Shield diameter	200 mm
Goose neck diameter	8 mm
Goose neck length	330 mm

Order No.

black	23966-000-55
-------	--------------

This high-quality popkiller is an essential piece of equipment for every professional recording studio. The large nylon screen is a perfect filter for troublesome buzzing and popping sounds. In addition it is better protection than a metal screen against moisture. The stable gooseneck can be mounted on all standard microphone stands and is suitable for many types of performance.

Dimensions diameter	22.5 x 50.7 mm
Male thread	3/8" with thread adapter 5/8"
Female thread	5/8" with thread adapter 3/8"

Order No.

black 23910-000-55

The König & Meyer Quick Release Adapter makes quickly switching of microphones or other accessories on stage or in studio easier. The adapter consists of two components. The lower section is screwed into the 3/8" or 5/8" microphone stand thread, and the upper section is screwed on using a 3/8" or 5/8" microphone clamp or holder or to other accessories. The lower section ensures the secure and flexible hold of the upper section through 8 punched bore holes. The upper section is used to remove or click the microphone into place using the quick-release adapter. By pressing the scored plastic handle on the upper section both sections can either be disconnected or clicked in place. The adapter is made of high-quality aluminum. A thread adapter is included with the delivery for 5/8" threading. Both adapter components can be left attached to the stand i.e. on the microphone/accessories.

SPEAKER, LIGHTING AND MONITOR STANDS

König & Meyer speaker, lighting and monitor stands set the standard in their class.

Reliability, stability and solidity are particularly important in this area: Nothing less than the safety of the musicians and the audience is at stake.

Intensive research into appropriate materials from among the highest-quality plastics available and the construction of highly durable connecting parts are just some of the individual steps in a long development process.

Our latest models from the "Ring Lock" series also prove that König & Meyer speaker stands aren't just exceptionally reliable, but also provide a big plus when it comes to practicality and handiness.

21467-000-55

An exceptional aluminum speaker stand with a unique patented expanding mandrel system that provides a stable, tight and firm fit for speakers.

The movable plastic splints provide for a vibration-free connection between the rod and the speaker.

Connecting the speaker is easy and is done using the handy ring lock - which is simply placed in position and screwed on. The height is adjusted by an easy-to-use spring-loaded bolt and locking screw. Double foot struts, zinc die cast clamping brackets and large end caps provide for highest degree of stand stability. It can't get any better than this!

Unshakable and Stalwart! This high quality, height adjustable distance rod is a guarantee for a secure, stable and quiet connection to satellite systems. The height is adjusted by an easy-to-use spring-loaded bolt and locking screw. The distance rod is connected to the subwoofer using the M20 threaded bolt. The unique patented expanding mandrel system provides a stable, tight and firm fit for satellite speakers. The moveable plastic splints provide for a vibration-free connection between the rod and the speaker. Connecting the speaker is easy and is done using the handy ring lock - which is simply placed in position and screwed on.

Leveling leg
for placement on
uneven surfaces
(stairs, steps etc.)
If the surface is even
or for transport simply
leave the adapter on
the speaker foot.

LEVELING LEG FOR SPEAKER STAND

21445	
Weight	0.7 kg
Special features	easily balance out uneven surfaces, stairs, steps or sloped surfaces; allows a height adjustment of max. 200 mm; if the surface is even, you simply leave the adapter in the initial position on the speaker foot
Material	steel
Suitable for tubing diameter of	35 mm
Diameter	40 mm
Height	647 mm
Fits	213, 21302, 214/6, 21435, 21436, 21463, 21467, 24630

Order No.	
black	21445-000-55
red	21445-000-59

Adapt your speaker stand to the respective stage, studio or practice room using this leveling leg - a useful supplement for the following König & Meyer speaker stands:

- 21300-009-55, 21302-009-55,
21435-009-55, 21436-009-55,
21460-009-55, 21460-009-76,
21460-009-81, 21463-000-55,
21467-000-55 and 24630-009-55.

With the help of this adapter you can easily level uneven surfaces, stairs, steps or sloped surfaces. The leveling leg is attached to one of the speaker feet and set using a clamping bracket. The required leveling length is variable and allows a height adjustment of max. 200 mm. If the surface is even, you simply leave the adapter in the initial position on the speaker foot.

Allows a height adjustment of max. 200 mm

MULTIMEDIA EQUIPMENT

The growing market for multimedia products has in turn sparked a steadily climbing demand for holders and stands for diverse purposes.

For example, monitors of all shapes and sizes need to be mounted on shop ceilings, on the walls of trade fair stands, or presented on stands in entrances.

König & Meyer offers flexible holders and stands for nearly every purpose in unmistakable designs and the usual high-quality workmanship.

The laptop stand offers stability and safety. The generously sized tray provides space for all common laptops. Thanks to the adjustable clamping bolts with rubber caps, the laptop is protected and can be secured safely on the stand. To secure the laptop, the clamping bolts are pressed on the laptop using wing nuts. The height of the stand can be adjusted variably. For transport the tray can be removed easily without the use of tools. The robust tripod legs quickly collapse together into a compact and easy to carry package.

Easy to set up - hooking in system for screens

SCREEN/MONITOR STAND

26782	
Weight	17.12 kg
Special features	internal cable routing possible; installation material (M4/M6/M8) and assembly tools included

black 19792-016-55

The individually adjustable support arms can accommodate the use of tablets ranging in height from 222 to 334 mm and width from 128 to 232 mm (for example iPad, iPad Air, iPad Pro, Amazon Fire HDX 8.9, Samsung Galaxy Tab from 9.7, Google Nexus 9, Asus Transformer or Microsoft Surface as well as Surface Pro). The depth of the tablets can vary between 6 and 11 mm. For the first use of the tablet holder the support arms settings are made by adjusting the clamp screws to the size and depth of the tablet. For other uses the tablet can be attached and detached quickly and simply through a snap lock. The holder will hold the tablet safe and secure. A handy wing nut allows one to adjust the angle, so that each user will easily be able to find their ideal individual position. The tablet can switch between portrait and landscape positions. The tablet is kept in place, there is no danger of the tablet switching position by itself.

iPad mini WALL MOUNT

black 19740-000-55

Suitable for attaching tablet PCs
in size from 120 to 220 mm

iPad is a trademark of Apple Inc.

Can be adjusted variably to accommodate different tablet sizes

TABLET PC HOLDER

19791

Weight	0.6 kg
Special features	to be attached to tubes up to 30 mm diameter; freely rotates 90°; alternatively: can be screwed on to 3/8" thread connectors
Material	plastic, steel
Width	from 128 to 232 mm
Screw-on to	tube diameter up to 30 mm
Swivel	90°
Height	from 222 to 334 mm
Depth	from 6 to 11 mm

Order No.

black 19791-016-55

Universal Tablet Holder for different models. The Universal Tablet Holder can be adjusted variably to accommodate different tablet sizes without needing tools and holds the devices securely and effectively for many different situations. Thanks to the strong clamp element with the ergonomic clamp screw the holder can be attached to any tube up to 30 mm quickly and easily. The individually adjustable support arms can accommodate the use of tablets ranging in height from 222 to 334 mm and width from 128 to 232 mm (for example iPad, iPad Air, iPad Pro, Amazon Fire HDX 8.9, Samsung Galaxy Tab from 9.7, Google Nexus 9, Asus Transformer or Microsoft Surface as well as Surface Pro). The depth of the tablets can vary between 6 and 11 mm. A handy wing nut allows one to adjust the angle, so that each user will easily be able to find their ideal individual position.

iPad mini STAND HOLDER

19713	
Weight	0.3 kg
Special features	to be screwed on to 3/8" threaded bolts; iPad mini is easily clipped into the holder; lightning connector and headphone jack are accessible; freely rotates 90°; suitable for iPad mini, iPad mini 2 or iPad mini 3

SHOP FITTINGS

The brand-compatible presentation of products in a shop is playing an increasingly important role in the buying decision process.

Clear and visually appealing, the large selection of König & Meyer instrument holders in combination with the professional SPACEWALL shop fitting system are a perfect solution for your business.

The flexible SPACEWALL wall panels can be installed in practically any texture or colour you desire in any shop. They will show off your merchandise perfectly, whether you have a small showroom or a huge megastore.

SPACEWALL®

44000

Order No.

44000-000-00

The SPACEWALL® shop-fitting system can be individually implemented in already existing shops or in complete new stores. You can choose for example from following surface finishes for your slatwall: unfinished or paint finished surface or a painted wall according to your desired RAL/NCS color. You also have the choice between a melamine resin coated surface in the colors white, grey, ivory or cream-white or a plastic-laminated slatwall in either white E110 MP or grey E 6 MP. Further possibilities are metallic or acrylic mirror designs or wood veneer finishes like pine, spruce, maple or alder. Further finish variations on request. We offer you the following slat widths: 53.1 mm, 76.3 mm, 88.0 mm*, 101.8 mm, 152.6 mm, 203.5 mm, 244.2 mm, 305.3 mm. Head pieces and bases can be produced on request. Ask for special design variations and other sizes for your slatwall!

*Size 2430 mm x 1210 mm or 1210 mm x 2430 mm.
